STATEMENT OF QUALITY AND REASONS.

As presented the law that governs intestate succession among Papia people had since 1907 in Act No. XXI of that year. It is true the said Act has been repealed by the Indian Statute Book Act No. XXIII of 1925 but this has made no change in the law, as all the provisions of the Act of 1907 have been incorporated verbatim in sections 10 to 25, and Schedule I, Parts I and II, of the Act of 1925. It has been felt for a long time by members of the Pania Community that the enactment, more than 15 years old, requires amendment both in form and substance for reasons stated. The meaning of some of its provisions is doubtful, some of these could have been removed by judicial decisions. It is also incomplete in some respects, and some of these deficiencies have had to be supplied by other judicial decisions. Certain other changes seem necessary in accordance with present day Pania sentiment and usage. The arrangement and language also require some revision. In order to remove doubts, supply deficiencies, incorporate as far as possible the judicial decisions which the law clearly has accepted, introduce changes commonly desired and make the arrangement more systematic it has been thought best to re-enact the whole enactment. In making this reform, as far as arrangement and language are concerned, much parts of the Act of 1907 have as far as possible been retained, e.g., by introducing sub-headings as in the previous Chapter relating to intestate succession among non-Pania, so as to give a group of the subject as a whole. For convenience the new sections of the Bill (No. 4) have been numbered 30 to 55 so that they may be substituted for the original sections of the Act of 1907 now in force.

PHILIPPO SETENA

The 2nd August 1937.

The following Bill was introduced in the Council of State on the 26th September 1937:—

C. 69 S. BILL No. 4 of 1937

A Bill relating to the Statutory right and the office of Debtor and the abolition of such right or office in Debtor's Endowment estate in favour of family debts.

Whereas it is expedient to make provision relating to the Statute of a private Debtor or Debtor's Endowment created by a person possessing lands with, it is hereby enacted as follows:—

1. This Act may be called Statutory Act of 1937.

It extends to whole of British India. It applies to Debtor or private Debtor's Endowment.

It shall come into force immediately on its publication in the Official Gazette.

2. The transfer of any such Debtor's Endowment shall be entitled to provide for abolition of the office of a Debtor and of the Statutory right regardless of the law of inheritance.

3. In the absence of any provision made by the founder as aforesaid or any usage prevailing in such Endowments or in the founder's family, the devolution of such office or of such right will follow the law of inheritance with all incident of property and family descent except as hereinafter provided.

4. Where devolution laid down by the founder is varied in another family and for any cause whatsoever in fact, the Shikah right and the office shall revert to the founder's family and will thereafter follow the law of inheritance.

5. A person who has changed religion or professed another faith or has been expelled from the possession of lands, family or religious rights, however, be excluded from inheriting such right or office or from enjoying such right or retaining in such office.

6. The office of a Shikah and the Shikah right shall not be taken from him or him or his heirs or his descendants under any decree made against a Shikah.

7. A Shikah shall, however, be entitled to exercise his office or his Shikah rights, in writing, in favour of the most law or custom just as execution of such writing by law or custom shall become entitled to such office and the said right.

8. The duty of any such Endowment will be treated as a Compensation but shall be the issue of the duty one or be paid.

9. In all suits or proceedings in which the duty is made a party, the Shikah shall be the recognised agent of the duty.

10. Where there are more than one Shikah, any one of them may be appointed to such recognised agent by all or the majority of them.

11. Where however the interest of such Endowment conflicts with that of the Shikah or where the Shikahs as the majority of them hold or refuse to execute a suit or proceeding or defend any, any Court or Officer during jurisdiction over the subject-matter of the dispute and as being satisfied that a person bona fide or defence has been made out, may or may not, or otherwise, shall nominate a person as the recognised agent of the duty for the purpose of such suit or proceeding.

12. Such recognised agent of the duty shall be entitled to be protected for all costs incurred by him out of the assets of the Endowment if he is appointed as such by the Court or Officer as aforesaid or if such suit or proceeding be bona fide instituted or defended in the interest of the Endowment or if the Court or Officer before whom such suit or proceeding is heard and decided decides that such costs were reasonably incurred.

13. Nothing heretofore contained shall apply to or in any way affect—

(a) the right or liability of a Shikah as a Manager or Trustee of the estate of the duty,

(b) any suit or proceeding after or amongst the Shikahs for partition of such or joint or several or some of a like nature, or any suit or proceeding instituted or taken by a person for establishing his claim to a Shikah right or office or possession thereof,

and it be provided that the duty shall not be made a party in such suits.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to remove doubts and difficulties that have lately arisen relating to private Debtor or religious endowments by persons professing Hindu faith. Such difficulties have been largely due to the recent decision of the Full Bench of the High Court of Calcutta in *Munshi Shikahs against Bhattacharya* (Calcutta, 15 N. 40 Calcutta 452, which decision has since been affirmed by the Lords of the Judicial Committee of His Majesty's Privy Council

in Grand Council House against La. Robert Blair, 41 Cal. Weekly News, Page 1. Before the Judicial Committee affirmed the decision of the Full Bench in *Shabazz v. Blair*, it was freely discussed amongst the Shigahs and Iqbalas that that case was not correctly decided.

In fact it was left to the judgment of the three Chief Justices (The High Bench) or Grand Council Justices that was every foundation for endorsement and it was. The decision of the Full Bench has not set at rest such doubts and the effect thereof will be far-reaching.

The founder of an endowment hardly contemplated that the line of succession in the office of a Shabaz will be not what he wanted to be but they came to as it has been decided in the two cases mentioned above.

When Sir Jacobus Fenderson and his colleagues on the Bench decided some years ago that the founder of such an endowment is entitled to authorize his trustee or other person to appoint any person, various documents had come into existence wherein such right had been given through a freedom of trial. But the decision of the Lords of the Judicial Committee has shown the foundation of such such a right which the founder was held to possess.

It will be and a hypothesis to defer a founder to decide who shall be the trustee of an endowment he was creating. Since after difficulties may arise as an effect of the said Full Bench decision as to the trusteeship of the Judicial Committee, now, that the Shabaz right is properly and is demonstrable on the facts.

It was ever contemplated that by giving such right of property to the trustee one would be bringing in persons who never possess Hindu faith or had become a convert to other religion.

The Civil Procedure Code of 1908 did away with the forfeiture of the right of inheritance when a person transferred his religion or excluded from the transmission of that religion. It is well known to point out that the said Act which is commonly known as Freedom of Religion Act is bound to come into operation in case of deviation of Hindu's rule. It may be doubted whether the old decision reported in 12 M.L.A. 400 or in 12 L.A. 136 will apply in person Shabaz endowments, who are in fact that Shabaz right in property.

The present Bill gives a right to the founder to nominate persons or a list of members in any manner he likes. No one can question or dispute that it is and should be a natural right and a person ought to possess such power when he establishes any such private religious or religious endowments. After all one must not forget that the founder as the last person in dependence is whose family his family had should be or properly looked after or the estate which he dedicates, to be fully preserved for the benefit of the deity.

The Bill also attempts to remove the difficulties which Shigahs have to face of late in the matter of nomination of such persons against the deity. In *Jagdish v. Ramnath Khatri* before the Lords of the Judicial Committee held that the rule of such a right in the Shabaz was not in the Bill. The High Bench Court also held the same view but in 12 M.L.A. 359 but confirmed a different one in 12 M.L.A. 735, and held that the Bill is the person to bring a suit or demand when the rule has to be brought. In *Pranath v. Fenderson*, 22 L.A. 245, the Lords of the Judicial Committee pointed that the interest of the deity should be looked after by a disinterested person appointed by the Court.

To obviate such difficulties and inconsistencies provisions have been made trusting the duty to a judicial person. But as the Bill does not obviously set provision for the appointment of a recognized agent which will enable him to have the consent of the Shigahs and conform to the provisions of the Civil Procedure Code. Provisions made in the Bill will be an effective check on unnecessary litigation resulting in the estate being encumbered up by costs of litigation. It is

also expected to remove difficulties in various other ways in the manner of restriction of trade by an agreement the whole of the duty. There is a further provision in the Bill regarding the general law against transfer by a Hindu of their public cow and sheep when it is no longer of the most use as a resource. A Hindu may become very old and incapable to look after the religious inheritance due to age or other infirmities. It is not well proved law yet that he can divide therefore in favour of the sons or other persons. Sir George Benson doubted whether a Hindu could do so. To remove such doubts, a provision has been incorporated with the restriction which may be beneficial in every case concerned.

MUSLIM EVIDENCE FOR CROWN CASES

The following Bill was introduced in the Council of State on the 22nd September 1927—

C OF A BILL No. 5 OF 1927.

4. *Bill to make it compulsory for all the Cutchi Muslems in the present to be governed in matters of succession and inheritance by the Mohammedan Law.*

WHEREAS it is expedient that the Cutchi Muslems be governed in matters of succession and inheritance by the Mohammedan Law, it is hereby enacted as follows—

1. This Act may be called the Cutchi Muslem Act of 1927.
2. Any and every Cutchi Muslem after the passing of this Act shall, in matters of succession and inheritance, be governed by the Mohammedan Law.
3. This Act shall be applicable to the entire District of India.
4. The Government of India within six months from the passing of this Act shall, by a declaration published in the Gazette of India, enforce this Act.
5. This Act shall have no retrospective effect.
6. This Act repeals the Cutchi Muslem Act of 1925.

STATEMENT OF OBJECTS AND REASONS

Subsequent time has proved since passing of the Cutchi Muslem Act of 1925 and large numbers of people of the Cutchi Muslem community have taken advantage of the same. However, there is a minority which still persist in being governed by the customary law and that tends to complicate matters. In order to bring about uniformity it is highly desirable that the entire Cutchi Muslem community be governed by the Mohammedan Law. The Cutchi Mohammedans are good Mohammedans and there is a general desire in the community to be governed by the Mohammedan Law. This Bill if enacted will go a great way in bringing about the desired uniformity all over British India so far as the Cutchi Muslems are concerned in matters of succession and inheritance and this will also facilitate administration of civil justice by the law courts in British India, as they will have to adjudge through an established code which under the present circumstances a wide field of custom and usage has to be traversed for a proper determination of the case. Therefore it is desirable that the Bill be enacted.

G. H. SPENCE,
Secretary to the Government of India.

LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Report of the Select Committee on the Bill to provide facilities for military manoeuvres and for field firing and artillery practice was presented to the Legislative Assembly on the 10th September 1937:—

We, the undersigned, members of the Select Committee to which the Bill to provide facilities for military manoeuvres and for field firing and artillery practice was referred, have considered the Bill and the papers sent to us on the subject, and have now the honour to submit this our Report, with the Bill as amended by an amended therein.

Paragraph 1.

1. The meetings of the Committee were held on the 11th and 14th March, 1937, at which certain preliminary matters were decided which were amended in a revised draft of the Bill. The second draft was considered in detail at a meeting of the Committee held on the 11th September 1937.

2. In clause 1 we have omitted the reference to British Bahadurs and the Northern Frontier in view of the provisions of sections 85 and 82 of the Government of India Act, 1935.

Clause 2, sub-clause (1)—The alterations of the expression "Local Government" to "Provincial Government" is purely formal and corresponds with the nomenclature used in the General Clauses Act, 1897, as amended by Order in Council in consequence of the amendment of the Government of India Act, 1935. The word "ordinarily" has been introduced in the proviso in order to allow a certain elasticity in meeting local conditions.

Sub-clause (2)—We have provided that at least two months' notice shall be given before the Bill is introduced and have also amended the provisions of military manoeuvres while ensuring that the notice shall be given as early as possible.

Sub-clause (3)—We have made more explicit provision for the publication of notices of any notification under clause 3 and have provided that the notification shall be issued not more than one month and one week before the commencement of manoeuvres.

Clause 3.—We have omitted the provision for power to interfere with manoeuvres in being unnecessary and have slightly modified the terms of the restriction imposed on the use of water sources. We have also more accurately defined the limits of the powers of interference with property interfered by this clause as being engaged in manoeuvres.

Clause 4.—We have omitted as unnecessary and undesirable the provision empowering the military officer commanding to take steps to prevent trespass by persons not entitled to the areas under test.

Clause 5.—The words inserted by us are intended to make clear the areas from which compensation shall be payable.

Clause 6.—We have retained the provision dealing with amount of compensation. We have provided that a Reserve officer shall in all cases overrule the facts in order to determine on the spot and where possible in the presence of the claimant the amount of compensation payable and to pay it forthwith. We have also provided for reports from officers to be made to a committee of which the Commander of the District shall be chairman, and which shall continue in the persons of two members of the District Board representatives of the local authorities who may be expected to be familiar with local conditions.

Clause 7.—We have reduced the penalty proposed for offences.

Chapter II.—We have omitted the provision for measures to be taken in order to prevent trespass by persons not entitled to the areas under test, and have substituted detailed measures laying down that provisions similar to that followed before manoeuvres can be undertaken shall be followed when field firing and artillery

practice contemplated, we have added the necessary provision for covering the value of the goods in the specification of damages, and have provided for the award of compensation for damage to and destruction of local customs.

Chapter III.—We have transferred to the Provincial Government, which will be more familiar with and obedient to local interests, the power to make the rules governing the administrative working of the Act. We have also specified in detail the matters in which rules may be made.

NOTE.

The 19th September 1905.

MINUTE OF DISSENT

We submit this Bill and we are concerned that it is a good Bill and will meet a long-felt want. It should facilitate many of the rules that had become necessary for every a proper law about the regulation of military munitions, field arms and artillery practice.

5. The corresponding English Act makes detailed provisions about information being given and its delivery to local bodies in the areas where such munitions are to take place, and also to lay on the table of the House of Parliament for a whole month the draft order regarding the proposed munitions. We also feel that it would be desirable to bring the Provincial Legislatures in direct touch with military munitions and not leave them entirely in the hands of the Government.

* Subject to a minute of dissent.

3. We are anxious that the Bill should give some indication as to the manner in which notices of public meetings should be published and also provide a schedule of maximum rates of remuneration for newspapers with certain rules and penalties so that Provincial Governments should not impose heavy rates. We, therefore, feel that some amendments to clauses 2 (d) and (e) and 3 (i) and (j) and possibly to clause 11 are necessary.

4. It should, in our opinion, be made clear that no stamps shall be necessary for any notices, applications and other papers that may be required to be filed under clause 6 (i) and (j).

5. While provision has been made for compensation to the actual subscribers, there is none for the landlord whose lands may be occupied under clause 9 (b) for purposes of field firing and artillery practice. The original Bill contained no such provision in this behalf. It is understood that where necessary the P.G. Government could use its own lands. We think a small amendment should put the matter right.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to remove discrepancies and confusion in the Act No. XXIV of 1906 for the administration of the Dargah and the Endowment of the Dargah of Khawaja Murtaza Ali Chisti,

generally known as Borgeh Khawaja Sahib, Agam. The last reading of the Bill which because that Act was turned in a great hurry and the Bill in a whole was not submitted either by the official draftsmen or by unofficial members.

As it stands the Act contains a number of inconsistencies, grammatical faults and unworkable provisions. The amendments suggested by the Bill are explained in detail in the notes on clauses appended below. They are merely of a verbal character. Changes of substance have been avoided; but, where they occur, they are wholly unimportant.

RAOUDIN AHMAD,

AGAMER,
August 1936.

NOTES ON CLAUSES.

Clause 2.—An Act of the Central Legislature cannot empower the Government to take action outside British India or to enforce outside British India action taken within British India. The reference, therefore, to "British India" in section 2 of the Act is either superfluous or ultra vires and has been omitted.

Clauses 3 and 4.—Section 3 of the Act has been generally revised and as rephrased incorporates the essential provisions of existing sections 3, 4 and 8, which have therefore been omitted from the Act. [Section 7, in particular, is entirely inconsistent with clause (c) of existing section 8.] The provision that all members should be elected has been brought to the beginning of the section. In clause (g) to (q) of subsection (1) the words "Legislature Assembly" have been employed in relation to Provinces with a single chamber Legislature, and the words "Provincial Legislature" in relation to other Provinces. (The variation of language, read with proposed section 24 [clause 8 of the Bill], means that the election will be by both Chambers of the Legislature where there are two such Chambers.)

Subsection (2) reproduces existing section 8 which employs the words "for election", which would seem to exclude the members referred to in clauses (d), (h), (k) and (q) of section 3 from the requirement of election. This has been amended.

Sub-section (3) is designed to reproduce in clearer form the last paragraph of existing section 8.

Clause 3.—The amendment to subsection (1) of section 10 is necessary because no member is "elected" under clause (a) or clause (k) of section 3. Moreover, the expression "elected" is not in accordance with existing usage.

Clause 5.—The amendment of subsection (2) of section 11 is partly grammatical. "That" is superfluous and "will" should be "shall". The expression "its manager" is ambiguous, as it could be referred to either "The Government" or "Borgeh Khawaja Sahib". "Manager of the Borgeh" appears from a reference to clause (k) of subsection (1) of section 12, to be the correct term.

Clause 7.—The requirement in section 12 that all members of a standing or special committee must be nominated ex post facto by the Committee is based to prove unworkable. The Bill substitutes a power to appoint members of Committees of power whereby the same must not be secured where desirable.

Clause 4.—Clause (b) of section 14 is queried by clause (d). It seems advisable not to require the Chief Commissioner to make rules in regard to elections held by the Legislature, as he is not likely to be aware of the conditions and practice in the various Legislatures and it would be preferable to leave these matters to the President concerned. (When existing section 14 was drafted no mention of Legislatures was contemplated in the Bill as introduced.)

Clause 2—It is difficult to understand exactly what classes of deposits are intended to be covered by section 20. However, the words "approved party" are very ambiguous and the "risk" of a District Judge is an indeterminate quantity. The result is that these clauses are almost entirely inoperative. That Act is primarily meant for President's orders only and is not understood in the *Madras*, where administration is governed by the Civil Procedure Code. In any case, it seems desirable not to attach complicated legal procedure of any sort to a process of arbitration provided in the Act in the interests of simplicity and expeditiousness. The Bill affects this.

Clause 20 and 21.—The amendments are merely grammatical. Clause 22.—The qualifications for the auditor in sub-section (1) of section 22 are not expressed in satisfactory terms, whatever their popular significance, and the Bill substitutes the required qualifications for auditors of company accounts. Sub-section (2) of section 22 provides an indication of how public interest is to be satisfied. This has been done.

The following Bill was introduced in the Legislative Assembly on the 20th September 1937:—

L.A. BILL No. 36 of 1937.

Any person who exports any article or insect from any province to another in British India, in contravention of a notification issued under section 40, or attempts so to export or transport any article or insect, or exports or attempts to export from British India to any Indian State any article or insect in respect of which a notification under section 40 has been issued, and any person responsible for the loading of goods or parcels at a railway or inland steam road station who knowingly contravenes the provisions of section 40 shall be punishable with fine which may extend to five hundred rupees and, upon any subsequent conviction, with imprisonment which may extend to three months, or with fine which may extend to two thousand rupees, or with both."

STATEMENT OF OBJECTS AND REASONS.

Sub-section (1) of section 5 of the Destructive Insects and Pests Act, 1917, confers upon the Central Government the power to prohibit or regulate import into any part of British India of any article or class of articles likely to cause infection to any crop. Power is, however, not available for the prohibition or regulation of movement from any part of British India to another of living plants likely to cause infection to any crop. Such power is particularly needed to guard the further spread of "Euc. Juss. Sten." (Lepidoptera Perileptus) which is a serious fruit pest and is known to attack in certain parts of the country. Central control, as recommended in item 30 of Part II of List III of the Seventh Schedule of the Government of India Act, 1935, is considered desirable and one of the objects of the Bill is to provide for such control. The Bill is also intended to enable the Central Government to exercise control over the importation, and movement from one province to another, of live insects which are or may be destructive to crops to place upon them by means of infection to them. As the Destructive Insects and Pests Act, 1917, stands at present, such insects do not come within its scope.

The following report of the Select Committee on the Bill further to amend the Indian Mines Act, 1923, for certain purposes was presented to the Legislative Assembly on the 22nd September, 1937:—

As, the undersigned, members of the Select Committee to which the Bill further to amend the Indian Mines Act, 1923, for certain purposes was referred, have considered the Bill and have now the honour to submit this our Report, with the Bill as amended by us approved, Hereto.

2 We have provided by the alteration made in clause 5 for permitting *exclusive* to the owner, agent or manager of the mine commencing operations in the mine, agent or manager of the mine, or of a mine at all operations, except in the course of the operation of a mine.

We realize that the subordinate legislation contemplated under section 30A is of a nature so important that it should be made subject to previous publication. We have accordingly provided by a new clause 5 that the provisions of section 31 of the Indian Mines Act, 1923, which require previous publication for three months of draft rules which it is proposed to make under the Act should apply to this subordinate legislation.

We have however introduced the same "rule" for "regulations" in order that the provisions of regulation which the Government proposed by sub-section (2) of section 31 of the Indian Mines Act may be amended.

We have reduced the period of the previous rule for the date of commencement which may be imposed on rules and used for the purpose of increasing control over mines, lands. We consider, in the light of the information available to us about the cost of the mine which whose establishment is contemplated in the immediate future that the limit of one year proposed by the Bill is excessively high.

3. The Bill was published in the Gazette of India, dated the 4th September, 1937.

4 We think that the Bill has not been so altered as to require re-publication, and we recommend that it be passed as now amended.

MEMBERS OF DISSENT.

We the undersigned, are of the opinion that the Bill as now amended under clause 4 by the Government-General is (a) not to be placed on the table of both the House of the Legislature for the next period before they are referred as if forming a part of the Bill.

5 We feel that the constitution, functions and organization of these proposed State Mines are of such great importance both to the public and the workers as to demand previous publication for their rights that can satisfactorily be expected from the Government-General or Government without the consent of the Legislature. Apart from the fact that too much power devolving upon the Executive through such subordinate functions under such Acts as these is likely to be passed will be injurious, we feel that it is not fair to the Legislature to expect it to give up all its rights to decide amendments, and, if necessary, question the manner in which Government acts or proceeds to see the purpose in this regard. The Government have passed

* Elected to a vacant seat in the Council of Ministers.

their liability to place before the Select Committee some a brief scheme of the proposed mode and scope of expenditure on the Bureau Station. In view of our past failure of the Government to encourage and sustain local Indian talent for the keeping of such museums, we feel it undesirable to give the anticipated self-making power to the Government or Council.

3. We were assured that as regards the representation to be given to the public, visitors and managers respectively as the Committee to administer the Bureau Station it would be well. But means are given, as far as possible, as much representation as the other two parties. We are afraid that too heavy a load is placed by the authorities on the shoulders of the managers to stand for the whole of the museum. We are inclined to think that some of the financial of the work representation being given to the visitors and managers in regard to the museum. We, therefore, think that the activity of the Government is more to stimulate the local power of altering the proposed and agreed settlement of our work in the future. Important, too much to the new scheme and museum on the concept of public relations is not likely to meet the respective objectives of representation to be given to the different interests concerned.

We desire to thank our dear old friend at the Federal of the Government to introduce a Bill amending the Bill to strengthen the major institutions of the Civil Service Commission such as compulsory training and we hope that the Government will take an early opportunity to introduce another Bill for that purpose.

Home,
21st September 1937.

With regard to clause 4 with all sub-clauses, my opinion is that this clause should be sent for circulation amongst the public.

2. As the scheme of this whole "Bureau Station" has not been placed before the Select Committee, we have not yet got an idea of the full cost and recurring cost, it is not possible for me to fit any "Cost" at present.

3. As the "Bureau Station" is a new institution altogether and is going to be an experiment, Government should bear the expense for the period of experimental stage.

4. If the experiment proves to be successful, a levy of half cost of part of the cost will be levied and all expenses incurred for experiment should be refunded from all means.

5. With regard to clause 5 and 6, I have agreed to the amendments proposed.

CHAPTER V—GENERAL.

Local
Government
to make
rules.

23. The Local Government may make rules consistent with this Act to carry out the provisions thereof and these rules shall have effect as if enacted in this Act from the date of publication of the same in the *Fort St. George Gazette*.

24. Nothing contained in this Act shall be deemed to affect the provisions of Act No. I of 1918, or of Act No. VII of 1928 or of any law or custom or usage except to the extent expressly laid down in this Act.

STATEMENT OF OBJECTS AND REASONS.

Mismanagement by karnavans and suits for their removal have become the order of the day among the Mappillas following the Marumakkattayam Law. This is not only straining the relations between the members of a tarwad, but is also the cause of ruin of several Mappila tarwads. It is, therefore, necessary that the karnavans' duties should be well defined and they must be made to maintain proper accounts of their management.

Mappillas are orthodox Muslims. But a section of the Mappillas chiefly in North Malabar and the southern part of the Anjerag taluk in South Malabar district, though following the Malomakkattayam Law in all other respects, follow Marumakkattayam Law as the matter of inheritance. Although this has been restricted in scope by the passing of the Muslim Succession Act No. I of 1928 and the Muslim Wills Act No. VII of 1928, yet the old custom still prevails in the case of the tarwad property. There is a general desire that in this respect also the law must be made to conform to the Malomakkattayam Law.

The Muslim Marumakkattayam Act No. XXII of 1933, which contains similar provisions, applies to all the people following the Marumakkattayam Law, except the Mappillas.

This Bill is intended, therefore, to bring the Mappilas in line with the other communities of Malabar.

MAHMUD SCHAMMAD.

L. A. BILL No. 9 OF 1937

A Bill to provide for the removal of social disabilities among certain classes of Hindus.

WHEREAS it is increasingly felt by the Hindu community that the disabilities, which are imposed by social custom and usage on certain classes of Hindus commonly known as Harijans, Untouchables, Backward Communities and Depressed Classes, and which have been in certain matters even legally recognized in the adjudication of rights and duties in civil and criminal proceedings, are repugnant to modern conditions and ideas of justice and social solidarity and should no longer be recognized by law or otherwise enforced, but should be severely discouraged; It is hereby enacted as follows:—

1. (1) This Act may be called the Removal of ^{Civil, Criminal and Revenue} Social Disabilities Act, 19 . . .

(2) It shall apply to the whole of the Presidency of Madras.

2. Notwithstanding any law, custom, usage or pre-^{social}scription to the contrary, no subject of His Majesty ^{disability} resident in the Presidency of Madras shall, by reason ^{not to be} merely of his belonging to any particular community ^{enforced} or class among the Hindus known as Harijans, Untouchables, Depressed Class or Backward Class or the like, be prevented or disabled from being appointed to any public office or enjoying or having access to any stream, river, public well, tank, pathway, convenience, or transport or any other service which the general public belonging to all other classes of Hindus have a right to enjoy or have access to or which is dedicated or maintained or licensed for the use of the general public, or which is maintained or paid for out of the funds of the State or local statutory authority.

And no Civil, Criminal or Revenue Court or public or local authority shall in adjudicating any matter

or executing any order or carrying on the affairs entrusted to such authority recognise any usage or prescription under which it is sought to impose any civic disability or penalty on any person by reason of his belonging to any of the communities aforesaid, or by reason of any acts or omissions on the part of such person which would not furnish grounds for such penalty or disability if he did not belong to such community.

STATEMENT OF OBJECTS AND REASONS.

The customs of segregation of certain Hindu classes as outcasts and untouchable and the social and other disabilities they suffer under in consequence of such customs, have been the subject-matter of universal condemnation. There has been continuous agitation on the part of the leaders of these Depressed Classes as they have been commonly called, as well as on the part of the reformers among the main body of Hindus to put an end to the customs of untouchability and to the disabilities arising therefrom. Recent events have brought this agitation to a head and there is at present a great wave of feeling throughout India for the removal of the disabilities of these Depressed Classes which in the interest of economy and general welfare, advantage should be taken of by the State. It is therefore desirable that a general law should be passed prohibiting the recognition of any rights, or disabilities arising out of the usage regarding untouchability, either in civil or criminal Courts.
